The following table shows underlying oil and gas sales and average prices attributable to the current month and prior month distributions.

Current Month Distribution	20,000	285,000	\$43.64	\$4.42

Excess Costs

XTO Energy has advised the trustee that lower oil prices caused costs to exceed revenues on properties underlying the Oklahoma Working Interest net profits interests. However, these excess costs did not reduce net proceeds from the remaining conveyances.

Reserves

The reserve for expenses, which began with the October 2015 distribution, was increased from \$50,000 to \$100,000 per month with the current month distribution. The monthly deduction will remain at that level until the reserve reaches \$1,000,000, which is estimated to be mid-2016. This will allow the trust to pay its obligations should any extraordinary events or expenses occur, especially with commodity prices at the current level. The trustee will continue to evaluate and revise the reserve as necessary.
