Excess Costs

XTO Energy has advised the Trustee that excess costs increased by \$139,000 on properties underlying the Texas Working Interest net profits interests, primarily due to timing of receipts. However, these excess costs did not reduce net proceeds from the remaining conveyances. Underlying cumulative excess costs remaining on the Texas Working Interest net profits interests total \$1,998,000, including accrued interest of \$688,000.

XTO Energy has advised the Trustee that \$108,000 of excess costs were recovered on properties underlying the Oklahoma Working Interest net profits interests. However, after the partial recovery, there were no remaining proceeds from the properties underlying the Oklahoma Working Interest net profits interests to be included in this month’s distribution. Underlying cumulative excess costs remaining on the Oklahoma Working Interest net profits interests total \$508,000, including accrued interest of \$26,000.
