### Current Month Distribution

XTO Energy has advised the Trustee that gas volumes increased from prior month primarily due to out of period revenues attributable to non-operated properties in the Oklahoma Royalty Interest net profits interests. This contributed to a higher cash distribution in the current month.

### Excess Costs

XTO Energy has advised the Trustee excess costs increased by \$106,000 on properties underlying the Texas Working Interest net profits interests. However, these excess costs did not reduce net proceeds from the remaining conveyances. Underlying cumulative excess costs remaining on the Texas Working Interest net profits interests total \$3,505,000, including accrued interest of \$907,000.

XTO Energy has advised the Trustee that \$215,000 of excess costs were recovered on properties underlying the Oklahoma Working Interest net profits interests. However, after the partial recovery, there were no remaining proceeds from the properties underlying the Oklahoma Working Interest net profits interests to be
